

PIAVE MAITEX presents unique performances with "AGAIN" line

Performance Days: November 13th-14th 2019, Hall C1 Booth C13, Munich, Germany

PIAVE MAITEX, preferred partner for the global textile industry, brings smart and responsible innovations of the unique line "AGAIN", on show at Performance Days fair.

PIAVE MAITEX, since the very beginning in 1908 up to the challenge of modern-day innovation, combined the tradition in the field of elastic fabrics which today represents the heritage of the Italian textile culture to innovation.

During Performance Days, the influential fair for innovations, trends, safety & durability and sourcing of fabrics and accessories in functional sportswear & athleisure, PIAVE MAITEX presents **AGAIN** a smart and technically advanced line, that balances performances, functionality and sustainable features, formed of highly performing jerseys. Three premium

AGAIN line by PIAVE MAITEX with ROICA™EF and NILIT® Ecocare

Global Recycled Standard (GRS) certified sustainable ingredients have been involved in the production of AGAIN: the premium stretch fiber ROICA™ EF − part of ROICA Eco-Smart™ Family − constructed out with more than 50% pre-consumer recycled content, perPETual high quality sustainable polyester born from a cost-effective process that reverses engineer consumer waste PET bottles and Reco Nylon® yarn by NUREL from 100% made of pre-consumer waste revalorizing the discarded nylon material, which is divertied from the waste stream during our manufacturing process thus closing nylon life cycle. Lastly, Piave selected the NILIT® Ecocare recycled nylon 6.6 with deep, uniform color that is certified as a pre-consumer recycled fiber by Scientific Certification Systems (SCS).

In addition to the key high-tech, responsible raw materials, the Italian manufacturer will present a new development characterized by sustainable water-saving printing, with the possibility to be color-customized. Moreover PIAVE MAITEX

will showcase the unique and innovative combination of two AGAIN articles to obtain an entirely sustainable bonded fabric with the possibility of personalized colour combinations. The range of functional fabrics, dyeable and transfer printable, perfectly combines creativity, innovation, real performance and sustainability all at once offering unparalleled comfort, performance, and tenacity. Lastly, two brandnew developments will be presented a mesh combining transparency and performance features, made with **Reco Nylon®** yarn by NUREL and **ROICA™ EF** premium stretch yarn and a high gauge microfiber with nice handefeel, fine compression and sustainable credentials being made with **NILIT® Ecocare** and **ROICA™ EF**.

AGAIN line by PIAVE MAITEX with ROICA $^{\mathrm{m}}$ EF and Reco Nylon $^{\mathrm{@}}$

The innovative approach of PIAVE MAITEX allowed not only to become world-

renowned as best-performing company but also to obtain many important recognitions infact it was among the first textile manufacturers in Europe to get the certification of the quality system for the production and design of elastic fabrics according to the UNI EN ISO 9001 standard in 1996. Later on PIAVE MAITEX obtained the "Trust in the textile" the Oeko-Tex® label - global synonym for responsible textiles manufacture, a concrete guidance for an increasing number of consumers who are becoming more and more sensitive to health and the environment and interested in get assurance over the quality of the products they are buying. Quality throughout the design and production process is not only a working method, it is a driver for PIAVE MAITEX that today is one of the major European producer for elastic, underwear and sportswear fabrics. The unique line has been enriched to cover a wider offer always staying true their DNA that include quality, performance and innovation among the most important features. Combining the tradition of relentless creation and high-tech industrialization PIAVE MAITEX explores everyday new boundaries of innovation, indeed leading the way in the development of smart solutions that integrate sustainability without compromising quality, design, performances.
