Years committed to
sustainable footwear

9
Sustainability standards
and ecolabels

Our Sustainability Journey

“Sustainability is a journey, not a destination.”
Everything starts with a change, and we're on the track to betterment.

1990

“Back To Nature”

— the philosophy of Vanbestco.

We were aware of the importance of equilibrium; building a positive relationship with the planet became our priority.

2010

“Get The Ball Rolling”

We built a sourcing team and commit ourselves to footwear sustainability.

2018

“We Manage Ourselves”

We joined the Higg Index to do self-assessment on our environmental impact. We aim for greater sustainability.

1977

We founded as an OEM/ODM footwear manufacturer.

2001

“The Green Partnership”

We partnered with ICEBUG (now the first climate positive outdoor footwear brand), and became their main supplier in Asia.

2012

“The Green Supply Chain”

We collaborated with our partners and material specialists on finding sustainable alternatives and solutions for footwear.

Our supply chain is going green.

2019 - 2020

“We're At ISPO”

We're back to ISPO & OutDoor By ISPO. The changes need to be seen, and we're ready for the world.

2021

What we do

We cover the complete process and production stages in shoemaking. From design, development to the production, we provide a vertically integrated service with a precise manage roadmap.

R&D is at the core of Vanbestco. We are committed to developing better solutions for our clients.

We design.
